inish his Southern tour—he having performed before three
hundred and sixteen thousand American citizens in the
South, during a period of six months. He will soon have
the bonor of making his third appearance in New York, and
give a series of his entertainments, which will include a
number of new and startling wonders in natural magic. Professor Anderson flatters himself that he is too well known to
the citizens of the Empire City to require the puffery of any
of the conceited and blundering conjurors who have lately
sprung up in America. Since he had the homor of appearing
his extraordinary success has called into existence a host of
timerants, who have neither name nor fame in this or any
other country, and whose abortive and unartistic performances are as great a humby as the Spirit Rappings. Professor
Anderson will, for the first time, give his expose, and lecture
on the Spirit Rappings, and their attendant phenomena,
vis.: astrology, clairroyance, second sight, &c., &c. This
extraordinary juggleand most permicions delusion has consed
seventeen persons to commit suicide, and has sent 573 to the
lundite asplums throughout the Union. Professor Anderson
will show how the raps are produced, and explain the whole
machinery in use by the Spirit Rapping lugglers. N. B.—
